TIN CANADIAN

PILING ON NEW TAXES.

PILING ON NEW TAXES.

Mr. Fister explains that in
order to give the West Indians a
preference in the Canadian market, duties will be imposed or
tropical products coming from
other segions. The amount of
such productions consumed by the
average family is not large, and
the domestic exchequer may not
define the contraction of the contraction of the
interest prices Incident, upon
the new duties. But it this is
their way of negotiating preferential trade garangements it is to

THE REASON

FOR THE EASY TERMS

As was the case with Allendale, our motive in selling GROSSDALE on terms of \$10

As was the case with Allendale, our motive in selling GROSSDALE on terms of \$10 cash and \$5 per month is to place this property within reach of those people who have only their savings to invest as well as those who can command large sums. A man always remembers the firm through which he made his first profitable investment, and because a large percentage of the moderate adarted young people of the present day will be the big investors of a few years hence, it pays to be the American theorem of the present day will be the big investors of a few years hence, it pays to be the American the present day will be the big investors of a few years hence, it pays to be the American the present day will be the big investors of a few years hence, it pays to be the American the present of the present day of the present day of the present day and women in Greate Edomotto today commencing their careers on adartes that admit of only a moderate monthly aways commencing their careers on alaries that admit of only a moderate monthly aways commencing their careers on alaries and the saving they are most only and GROSSDALE at its present prices and terms puts a sound investment exportantly within their reach.

GROSSDALE is sure to advance in value while you are saving the money to pay for it, and you get the benefit of the increase. That virtually is what it means to buy a GROSSDALE is not advance in value becaus of tis location directly south of the new high level bridge and right in the path of the great development that is bound to come with the completion of the bridge. 30 GROSSDALE will be within as blocks of paying by the end of next year and a projected car line is mapped out to run along its morthern boundary.

GROSSDALE is inside the city limits.

GROSSDALE

"Where the High Level Bridge Will Take the Population."

SHIFT IN THE WIND SAVED THE STEAMER

Buy Ground-Floor Industrial Property NOW

Buy where the Industries are. Buy where the Industries are going. Buy where your profits are quick. Buy where your profits are certain.

In the last two weeks we have been able to announce the location of two large industries, which will very greatly enhance the value of Kennedale.

One of these industries will start building operations within the next three weeks; this is absolutely certain, It will be a plant of considerable magnitude, and a large number of men will be employed, which will cause a great demand for homes and property in the Northern portion of

KENNEDALE

In the South, on the Grand Trunk Pacific Trackage, another huge concern will locate. It will commence building operations in the early spring. This is a Wholesale Harness Manufacturing Company, and it is expected that their plant will cost anything from \$60,000 to \$100,000.

You should go out and see Kennedale. See where the industries are now. See where others are going, and then you will be better able to realize what enormous values Kennedale is bound to reach.

Industrial Property always has a higher value than residential property, and the wise men who are buying in Kennedale today are the ones who are certain to see extraordinary profits in the near future.
